RE: Report Fall Executive Council Meeting

The FSMA Website has been redesigned to make it more user friendly. It is a shame that requests for information about the winners of the Awards at the convention meeting have fallen on deaf ears. Both President Parrino and this Chair have asked various people since May to no avail. I am not saying the FSMA must be a major priority in your lives, but we are all busy people. When you are in a position that makes you responsible for something, you MUST take it seriously enough to follow through and under no circumstances should you then complain that it wasn't done.

All requests from Officers, Committees, Chapters and individuals to have information put on or changed on the FSMA Website have been done in a timely manner.

Postcards announcing upcoming FSMA meetings have been designed and mailed to all members directing them to the Website for detailed information.

Thank you for the opportunity to serve the FSMA.
